

Are you maximizing your Salesforce potential? Our free Health Check shows you how.

Offered by Rednellac, the Salesforce Health Check is a free one hour session to see if your system is working as hard as you are. Nothing to lose, just a quick review of what is working, what is not, and how to align Salesforce with your business goals. Quick fixes for today and ideas to maximize your Salesforce investment.

Step 1 – Introductions and background.

Step 2 – Discuss how Salesforce is performing day-to-day.

Step 3 – High-level org review.

Step 4 – Align findings with business priorities.

Step 5 – Provide next steps, quick fixes to longer-term upgrades.

Why a Health Check Matters.

- Maximize ROI by uncovering underutilized features.
- Boost productivity and reduce technical debt.
- Ensure your org is scalable for growth.
- Align Salesforce solutions with business priorities.
- Prepare for AI and future innovation.

The Outcome:

No jargon, a straightforward list of what's working, what's not, and what to do next.
